RUSSIA'S PLANS

Will Have a Force Ready by August
TO DRIVE JAPS INTO THE SEA

eanime Togo Says he has Blocked
Port Arthur and a Squadron
Watches the Port

Russians Ready by August.

St. Petersburg, May 7.—The government is planning to concentrate a huge reserve army at Harbin, which will be ready about August. When the force is ready the Czar himself will visit the place and inspire the men with a resolution to drive the Japanese into the sea. Until this army is assembled, the probability of abandoning the whole of Southern Manchuria, with the exception of Port Arthur is admitted.

Togo's Story of the Attack.

Tokio, May 7.—Vice Admiral Togo reports that the entrance to Port Arthur is blocked completely, to all vessels except small boats and that the Japanese have not lost a single war vessel, although the attack resulted in considerable loss of life.

Cruisers Watch the Harbor.

Chefoo, May 7.—Chinese coasting vessels report a succession of tremendous explosions at the entrance to Port Arthur harbor. It is believed the Russians are trying to clear the channel of the ships sunk there by the Japanese. A Japanese cruiser squadron is watching the harbor to prevent a sally of the torpedo boats against the Japanese transports.

Persistent reports are reported from Kobe that the Vladivostok squadron has been destroyed by the Japanese naval forces now covering the Sea of Japan, commanded by Admiral Kamimura.

There is no official confirmation of the report, the authorities refusing very politely to say whether they have received any news of the battle. The report cannot be traced to any authoritative source, and that the details of the alleged battle are entirely lacking causes the report to be received with reserve.

It is known that the Japanese fleet is under strict orders to prevent a repetition of the recent raid down the Korean coast, successfully undertaken by Admiral Yozon, and if the Russians have ventured out of port it is practically certain they have been forced to fight.

With Vice Admiral Togo hovering in the immediate vicinity of Port Arthur and transports loaded with troops lying at Pitawo, northeast of that stronghold, Russia, it is announced, will again play the defensive role, this time, it is hoped, with better success and with less sacrifice of life than in the engagements on the Yalu.

The war commission sat until two o'clock a.m., Sunday, and at the close of the session it was announced that there was nothing to communicate to the public.

The Czar has been informed of the presence of the Japanese fleet off the Liao Shan promontory, and the appearance of transports at Pitawo. The fact that the two events occurred simultaneously may have significance. If a landing should take place at Pitawo experts anticipate that Togo's battleship squadron will bombard Port Arthur in order to prevent the garrison from sending reinforcements by railroad to the troops opposing the Japanese.

AT THE CHURCHES

The pulpits of the Presbyterian, Baptist and Methodist churches were filled yesterday morning and evening by members of the synod of British Columbia, in session here last week. In the Presbyterian church Rev. R. Laird, M.A., preached in the morning and Rev. Professor Kilpatrick in the evening. A communion service was held at four o'clock in the afternoon. The preachers in the Baptist church were Rev. J. M. Young in the morning and Rev. Gray in the evening. Rev. W. C. Calder preached at the morning service in the Methodist church and Rev. J. H. Holbertson, B.A., of Grand Forks, D.C., in the evening.

The theme of Dr. Robinson in the Methodist church last evening was: "The Church in the Community." The discourse outlining the purposes of the church on earth. The church is pointed out as the recognized agent of divine institutions in the world, absolute righteousness of life

in all its relationships, the cultivation of the religious nature and the salvation of men. The preacher pointed out the honor of belonging to the only institution established in the earth for the salvation of men. It was the duty of the church to point out and condemn sin wherever found.

"The Love of Christ" was the subject of Rev. Gray's sermon in the Baptist church last evening. Emphasis was laid on the unchanging love of the Saviour's affection, as manifested in his treatment of Peter.

"The Mind of the Spirit" and the preacher, in one of the most eloquent and powerful sermons ever delivered in the city, emphasized the importance of the spiritual as contrasted with the temporal affairs of life.

 Hoping that some may gain some
 points out of this and work on them
 better, I would say, "Canada for Can-
 ada."

A WELL WISHER.

Cranbrook Oil District

The Cranbrook Herald in discussing
 the oil possibilities in that district,
 says:—
 Great interest is being manifested
 these days in the oil possibilities of
 this district, and as the Western Coal
 & Oil company have taken first rank
 in exploring the fields in this section,
 naturally their movements are watch-
 ed with interest. Beale & Elwell, the
 local brokers for the firm, stated to
 the Herald this week that the company
 was pushing the work along in a rap-
 id manner. They have two wells op-
 erating in southwestern Alberta, one
 of which is down 448 feet, and the
 other 1435 feet. A thick lubricating
 oil has been struck at 138 feet, and
 again at 448 feet. And speaking of
 this oil, Simpson Walker, of the Walk-
 er oil company of Winnipeg says this
 is the finest natural lubricant he has
 ever seen, and offered to purchase
 20,000 gallons at 16 cents on board
 the cars at Pincher Creek. The com-
 pany has seven and a half square miles
 in Alberta and eight square miles at
 Pincher Junction, and their terri-
 tory embraces what is considered the
 cream of the oil lands of that rich
 field. The development of these oil
 fields, and the success attained by this
 company that is working on a business
 basis, and following business methods,
 brings to mind the oil scenes of Penn-
 sylvania and Texas, where fortunes
 were made in a night. The company
 displays excellent judgment on one
 point, it is disposing of enough shares
 to meet developing expenses and when
 those are gone, no more can be pur-
 chased.

Former Strathcona Man

A few days ago, says the Saskatche-
 wan Times, Mr. J. H. Wilson, who oc-
 cupies the position of manager of the
 Prince Albert branch of the Imperial
 bank, received word that he was to
 be transferred to Regina. His many
 friends here, while congratulating
 him on the advancement, regret his
 leaving very much. Since coming to
 Prince Albert three years ago, Mr.
 Wilson has proved himself to be a
 most public spirited gentleman and
 has done much to promote the best
 interests of the town. He has taken
 a leading interest in practically every
 movement that has taken place with
 that end in view. The Board of
 Trade especially, on which Mr. Wil-
 son is now working his third term,
 will lose a very efficient and enthu-
 siastic officer. In good about sports
 Mr. Wilson has always been to the
 front and at present holds office as
 Captain in the Rifle Association, be-
 sides offices in many other lines of
 sport. He is also a lieutenant in the
 light infantry corps. In social circles
 Mr. Wilson is no less popular. A peti-
 tion is in circulation and is being un-
 animously signed, requesting the
 bank authorities to reinstate Mr.
 Wilson at this branch. Men of Mr.
 Wilson's calibre are the kind we need
 most to build up and push the in-
 terests of our town, and we join with
 all his friends in hoping that the bank
 will reconsider their action.

Fired Till the Waves Closed Over
Them

Details of the recent expeditions of
 the Vladivostok squadron tell the
 story of the heroic death of the Jap-
 anese soldiers on the Kishinu Maru.
 The squadron, consisting of the ar-
 mored cruisers Russia, Rurik and
 Gromoboi, and the protected cruiser
 Dogayr, put to sea at daybreak on
 April 23rd. The Rurik returned the
 following day, but the others proceed-
 ed to Genzan, Corea, and here to off
 the town during the morning of April
 24th about five miles from the en-
 trance of the bay. Admiral Yezzen
 sent into the bay two torpedo boats,
 commanded by Lieutenants Pechel and
 Macinoff. As they ran in towards
 the shore, they found the Japanese
 trading steamer Goyo Maru at an-
 chor with a crew of about 23 men on
 board. The latter were ordered
 ashore. Lieutenant Macinoff board-
 ed the Goyo Maru, took possession of
 her papers and flag, and then sent
 her to the bottom with a torpedo.
 The torpedo boat forthwith rejoined
 the squadron, after four hours' ab-
 sence.

There was no sign of troops ashore
 and the bay was empty, but it was
 learned that four Japanese torpedo
 boat destroyers had put out to sea at
 dawn on April 24th.
 The Russian squadron returned to
 Vladivostok and on the night of
 April 25th started on another expedi-
 tion. At six in the evening of
 April 27th, when 339 miles out, the

squadron sighted a Japanese steam-
 er, with war stores on board. Her
 crew, consisting of fifteen Koreans
 and twelve Japanese, were placed in
 safety, and the steamer was sunk by
 a pyroxylin cartridge, fired from
 the Gromoboi.

The time night at about 11 o'clock,
 when the squadron was 12 miles off
 Plaklin Bay, Corea, a large Japanese
 transport, the Kishinu Maru, was
 overhauled. Her commander mis-
 took the Russian for a Japanese
 squadron, and signalled: "I am bring-
 ing you coal."

The Russian commander promptly
 signalled in reply: "Stop instantly."
 The crew of the transport then re-
 cognized their mistake and began to
 lower boats and steam pinnaces with
 the greatest haste and endeavor to
 escape. But the Russian steam cut-
 ters captured them all.

On board the transport were four
 Hottchkiss guns of 47 millimeters.
 At the outset it looked as if no one was
 left on board, but on examination it
 was found that the cabin was locked
 and barred. Therein the Russians
 found six infantry officers, who sur-
 rendered without resistance and were
 taken on board the Rurik. In another
 part of the ship 130 infantrymen who
 refused to surrender were found.

Admiral Yezzen, whose ship was
 about 1,500 yards away, ordered his
 men to leave the transport. The Jap-
 anese soldiers then opened fire and
 wounded a Russian coxswain. After-
 wards the transport was sent to the
 bottom by means of a mechanical
 mine and a few shells.

The Japanese on board did not cease
 firing and made no attempt to save
 themselves, although they had a
 launch in which they could have left
 the transport. The fire of the Jap-
 anese actually continued until the
 waves closed over the ship.

The transport had on board not
 only ammunition, but 2,000 tons of
 coal for Admiral Kammura.
 The prisoners numbered 183, includ-
 ing 17 officers. Altogether 219 pris-
 oners were taken by the Russian
 squadron, landed at Vladivostok, and
 immediately despatched by train to
 Nikolok.

It was reported at the time the
 Russian cruisers were returning to
 Vladivostok, that a Japanese fleet of
 ten vessels was also making for there
 but it failed to reach Vladivostok
 owing to the fog.

A wireless telegraph message was
 picked up by the Russian ships while
 at sea. It was in code and unintelli-
 gible, but was evidently passing be-
 tween the Japanese ships.

Among the Japanese prisoners were
 a colonel and an officer of the gen-
 eral staff, while the soldiers included
 a number of Japanese who before the
 war, worked as artisans at Vladivostok.
 A Japanese squadron was
 sighted off Vladivostok after the
 fleet reached the port.

NEW ALBERTA HOTEL

BUILDING ABOUT COMPLETED

The Handsome New Building at the Corner of Jasper and Fraser Avenues May Be Occupied This Week

The new Alberta Hotel building is now practically completed and will probably be occupied during the latter part of the week.

This handsome block which was begun last summer is among the largest and probably the most imposing in the town. It stands at the corner of Jasper and Fraser avenues on the site formerly occupied by the old building. The main structure is of stone from the concrete foundations to the height of the first floor, above this of solid brick and is about 73 feet square, four stories in height. The corner above the main entrance is surmounted by a handsome dome. The basement is the full size of the building.

A new wing, 31x38 feet, two stories in height has also been built. The first story is occupied as a kitchen, the basement as a laundry and the upper floor contains bedrooms.

The main building is joined on the east by the brick wing erected some time since and which contains the barber shop, with bedrooms in the two upper stories.

It is also proposed to build during the present summer a single storey brick building 15x20 feet in the rear of the angle formed between this wing and the new building.

The interior fittings and decorations are fully in keeping with the exterior appearance and size of the building. The main entrance at the corner of the building opens into a spacious rotunda, with a commodious office to the right. To the left are the elevator shaft, the main stairway and the entrance to the dining hall. The bar is located in the wing on Jasper avenue and is among the most ornamental in the West.

The parlors, suites, and the private rooms occupy the three upper floors, providing for over one hundred guests and are conveniently arranged with a liberal number of bath rooms. The elevator runs from the basement to the top floor while open-hailed spaces in the first and second floors permit the descent of light from a large skylight in the roof.

In the heating of the building steam will be used throughout, supplied from a 65 horse power return tube boiler in the basement.

A private electric lighting plant is being installed, the dynamo having a capacity of 30-15 candle power lamps. At present about 200 lights will be required. Power will be also supplied from this plant for operating the elevator.

Some delay in occupying the new building has been caused by delay in the arrival of the furniture. This has been received and is being rapidly put in place. The office fixtures will probably not arrive for some time, word having been received that the factory was closed for some time. When these are placed and the decorations completed the hotel promises to be the best between Winnipeg and the Coast.

Brutal Juvenile Crime

An atrocious juvenile crime was perpetrated on Tuesday last, the 12th inst., at Moose Lake, near Duck Lake, Sask., in which a 14-year-old boy named John Shewell killed his father a gun of five years. It appears that the child was sick, and crying, and asked the boy for a drink of water. Instead of complying, he remarked, "I'll stop her crying," and grabbing up a poker, beat the child over the head with it, striking her several times, from the effects of which she died a few hours afterwards.

Farmer Found Dead

Yorkton Enterprise:

George Brice, a young farmer, 22 years of age and unmarried, was found dead in his house, on his homestead about nine miles from Yorkton on Tuesday, death being the result of a gunshot wound in his head.

The discovery was made by the father and a brother of the dead man. When found young Brice held in his hands a gun, but how he came by his death, whether by accident or not, will be determined by a coroner's jury, which will hold an inquest over the body.

Since last Friday George Brice had not been seen. Among his friends it is believed that he met his death by accident, the gun having probably discharged while he was in the act of loading it. Pending the result of the coroner's enquiry, the shooting and its cause remains a mystery.

Any man, woman or boy can do a nice job of painting with our paints, as the colors are all true to sample and thoroughly mixed.

A large consignment of Bluestone just received.

ROSS BROS LIMITED

BRANDON FLOODS

CONTINUE UNABATED

The Little Saskatchewan Reported to Have Changed Its Course and the Assiniboine is Rising Rapidly

(Bulletin Special Dispatch).

Winnipeg, May 28.—Considerable alarm has been occasioned in the city by the rapid rise of water in the Assiniboine, coupled with the report, widely circulated, that the Little Saskatchewan, which empties into the Assiniboine near Brandon, has changed its course and made a new channel from near Wheatlands, reaching the Assiniboine in turbulent fury at Manner instead of following the usual circuit of its course. As this cuts off many miles for the water to travel, it would make a considerable difference in the time it would take the flood to reach the lower reaches of the Assiniboine.

The fact that the water has risen to such an alarming extent at Brandon would tend to justify the suspicion that the Little Saskatchewan had gone on the rampage. A Brandon dispatch today says: "Not in 20 years has the Assiniboine been as high as now. It rose over three feet in twelve hours and is still rising steadily and rapidly. Already over forty buildings are under water, including all the slaughter houses and barns situated in the low lying districts of the city. The roadways on First and Eighteenth streets leading from the north side to the river, are under water and fears are entertained that bridges on both sides will be washed away."

"Men employed by the city are on both banks keeping the piers clear from driftwood. Three of the leading butchers have feeding barns on the flats and these are now under water. The stock is being moved to higher ground. The city is now a sea of mud. The water is running at a terrific rate and the building may be lifted from its foundations at any time."

"Some of the residents, principally Catholics, living in what was considered the danger points, were moved out of the houses, but the water rose higher, and early today others had to make a hasty exit from their homes."

"The banks of the river were lined with household goods. In some instances everything was saved. Those of the people had to lie on the roofs of their dwellings."

"Across the Assiniboine known as the Syne, are small bridges leading to an island in midstream. These have been washed away and all small structures on this side of the river. The railway bridge which crosses the Assiniboine so weak that trains cannot cross."

"In Humber, near the sawmill, were piled huge heaps of staves. These have all been washed away, as has the summer's supply of wood gathered by poor foreigners who live in the flats."

"Many old settlers predict that the water is not yet at its height. They say the bank of the river are watching the rapid rise of the water. It has risen so high that the watercourses are out of business and the city is without fire protection."

DROWNING ACCIDENT

IN THE STURGEON RIVER

Frank Pelletier, of St. Albert, Lost in the Rapids Near Sunnyside

News was brought to the N.W.M.P. barracks this morning of a sad drowning accident on the Sturgeon river, by which Frank Pelletier, of St. Albert, lost his life on April 30th, while his comrades, John Morasse, had a narrow escape from a similar fate. The news of the accident reached St. Albert some time since, and Constable MacGillivray of the N.W.M.P. detachment there, immediately left to investigate the matter. He reached town this morning with the details of the affair.

It appears that Pelletier and Morasse left St. Albert in a boat, intending to descend the Sturgeon to the Saskatchewan to engage in mining for the season. About fifteen miles below St. Albert, near the Sturgeon settlement, a number of rapids were encountered over which the waters were tumbling with great rapidity. In crossing the first, the boat came filled with water, and Morasse getting alarmed, sprang out, managing to catch the branch of a tree, by which he worked his way to shore. Pelletier, however, remained in the boat, and was seen rapidly approaching a bend in the river a short distance below and lost to sight. This was the last time he was seen. The boat was reported to have been seen floating empty further down stream the assumption is that he was swept out and drowned. The river has been thoroughly searched, but no trace of the missing man has been found and it is thought the body was carried down to the Saskatchewan. The Sturgeon is a river where the accident occurred was about forty yards across.

NAVIGATION OPEN

ON THE GREAT LAKES

The First Boat Left Port Arthur Early This Morning Loaded With Wheat

(Bulletin Special Dispatch).

Port Arthur, May 28.—The first boat, out of here this season is the Neepawa which took on sixty thousand bushels at the Canadian Northern elevator.

She left here at four a.m., being out before the ships had clear of all ice by seven thirty. The Midland Queen followed the Neepawa, leaving Port William about an hour later.

All boats can now get in and out of the harbor here.

FOUND THE BODY

OF THE LOST SETTLER

The Body of Alfred Allan, of Lloydminster, Who Was Lost on Jan 24th, at Last Found.

(Bulletin Special Dispatch).

Lloydminster, May 28.—The body of Alfred Allan, who had been missing since Jan 24th to go to Miss Selley's place 25 miles southeast of here and who was lost in the storm of that date, has at last been found on the 5th inst. The body was found about 789 yards from Miss Selley's house and about 10 yards from the trail. The detachment of N.W.M.P. Police were in the district at the time and made arrangements to have the body buried last Saturday.

There seems to be no end of the new people who are starting in business here. Every day some new person appears on the ground full of prospects of the place and stating that they are going into business. Messrs. Hume & Ross of Edmonton are starting in the general store business. Burdett & Tyler are starting in the furniture and undertaking. Taylor Bros. have opened a new restaurant and prospects are good for a "fifty business." Dr. Bill of Kingston, Ont., is opening in the medical line and a dentist formerly of Edmonton, is making arrangements to settle in our midst.

Large herds of cattle are already on the market and settlers can now stock their farms at prices quite reasonable.

Seven carloads of lumber are now on the Battle river from Ponoka for the colony and Walters of Edmonton is arranging for a large quantity by the Saskatchewan.

COLONISTS GOT AWAY

The first company of British colonists to go by the river route got away on Saturday. The party consisted of Mrs. Smith, Mrs. Smyth and seven children, Mr. and Mrs. Weir, John Forster, T. Simpson, Mr. and Mrs. Sanderson, C. P. Kilmister, Mrs. Kilmister and two children, Joseph Parker, Wm. Sanderson and A. Peterson. The crew carried about 10 tons of freight and drew nine inches of water. Mr. Wade of the transportation company accompanied the party to Fort Saskatchewan, returning yesterday. They had a pleasant trip to the Fort, making about three miles per hour and were enjoying the run very much.

FORT SASKATCHEWAN

(From the Reporter).

The sitting of the Supreme Court here under Judge Scott, was a very short one. All the cases were disposed of on Tuesday. The extraordinary trial does not speak well of the vicinity.

A three-year-old child of Robert Turner, a narrow escape from drowning a few days ago. It fell into the creek by Sheras pig ranch and was brought to its mother by the rescue who jumped into the creek in time to save her child.

H. Wilson was in Strathcona this week and purchased the ineffectual stock of Smith & Greenway there. On Monday evening he delivered a popular and instructive lecture on "The Mighty Dollar," to a large and appreciative audience. Rev. E. J. Hodgson of Sunnyside presided. At the conclusion of the lecture Messrs. A. T. Chalmers and W. G. Shera moved the speaker a hearty vote of thanks for the profitable evening he had afforded to these present.

LIBERALS MEET TONIGHT

There will be a gathering of Liberals in Calgary this evening at which it is desirable that there should be a good attendance. Addresses on questions of importance will be delivered by Messrs. C. W. Cross, J. R. Boyle and Dr. Forin and the time is anticipated. All Liberals are invited.

ASTLEVILLE

(Bulletin Correspondence).

A dead horse with harness on was seen floating down the Sturgeon river last week at this point. It is reported that two dead horses and one calf have floated down. Mr. Weir spent last Saturday and Sunday with friends at the river. Prairie fires and bush fires are to be seen in every direction. Miss Addie McKee, who has not been very well for some time past, is better, we are glad to report, and able to attend school again, though not entirely well.

Last Tuesday a boat was seen floating down the Sturgeon river. It was reported that it contained a man's clothing, attached and hanging behind it. It is reported that three persons—a father and two sons—left St. Albert for Fort Saskatchewan, where they thought they would travel down the river. When at or near the New Lannon mill, where there are some rapids, the father and one son came ashore, but the other son, a man, thinking he could steer the boat, remained and it is feared that he was drowned. The police were out investigating. May 4th.

To Advertisers

Owing to increase of circulation of the daily and semi-weekly Bulletin it has become necessary to print the necessary to print the semi-weekly or the morning of the day of publication instead of the evening as hitherto. Therefore it has become impossible to insert advertisements or make changes on the day of publication. To insure the insertion of new advertisements they should be handed in early in the afternoon of the day before publication. Changes should be made in as much time as possible before the publication of the semi-weekly are printed 1 to 2 days before publication.

Tenders Wanted

Tenders will be received by us for the building of a new office house, of lumber (board measure) from our timber lands on the bank of the River Saskatchewan, about 10 miles up, to our mill at Edmonton. Apply personally at our office or call on by mail addressed P. O. Box 76, Edmonton. D. R. FRASER & CO., March 1, 1904.

NEW ADVERTISEMENTS.

ENTERTAINERS COMING.

Miss E. Pauline Johnson and Mr. Walter Melville, the famous entertainers, are dated for Edmonton on the 24th inst. The New York Sun says regarding Miss Johnson: "Miss E. Pauline Johnson, of the Mohawk tribe of Canada, has taken Boston by storm with recitals of her poems. She is perhaps the most unique figure in the literary world of this country. She is a Mohawk, the daughter of a Canadian and a white man, the daughter of the big house, the well known chief of the Six Nations."

ROSS CREEK

(Bulletin Correspondence).

The busy season of seeding is here as well as garden planting and the grass is coming fast so that cattle find quite a picking in the meadows and the hill-sides are beginning to show green.

The roads are drying off excepting the mud holes, which are bad.

The Royal Mail got stuck in the mud last mail day on its way from Ross Creek to Logan.

Mr. Olman, one of the oldest settlers, has picked away after a long illness. The family are preparing to leave here and move to Oklahoma.

Mr. Byron Van Buskirk gave a dance the other night in his new home.

Elmer Hallberg has been awarded the contract to build the school house in the Salmon District and has the building now nearly finished.

Service is held every other Sunday afternoon in the Ross Creek School House by the Presbyterian minister, and Sunday School by Mrs. Brigham.

The Grassy Lake meadows are almost alive with fish splashing in the water and grass.

The game guardian, Mr. Simmons, is here at present.

We read in the Bulletin of many immigrants and land seekers coming out to Edmonton, but it seems not any of them are making their way to Ross Creek. This settlement has some good homestead lands left vacant yet back in the hills.

Mrs. Brigham and some of Ross Creek's young folks made a call at Mr. and Mrs. Robert Van Buskirk's in the afternoon of May Day and spent the evening with music and singing. Elmer Hallberg has removed his blacksmithing outfit from Ross Creek to Salmon's store for the summer. Ross Creek, May 5th, 1904.

Bridge Still Stands

Saskatchewan Herald: The ice has run out and the bridge still stands, thus relieving the anxiety of the town. The first movement of the ice damaged one of the piers so badly that a portion of the stone ran out and started to undermine another which had been built originally forty feet back from the bank. The river became choked with ice and rose steadily all

day Friday and Saturday until the ice was within four feet of the chocks of the new steel bridge. As great fear was felt that the bridge in its weakened condition could not stand a great strain, an examination of the river was made to see if it were possible to break the ice jam. It was found that the river was overflowing the north bank into the police flat but not sufficiently to float the ice over which consequently was resting against this bank instead of floating on down stream where there was open water. Steps were at once taken by the Board of Trade to have the ice run into the police flat to reduce the strain on the bridge, but when the workmen arrived the river had commenced to fall. By midnight the party working at one point were compelled to stop for want of water to float the ice. The second party were able to keep the ice running until nearly four in the morning. As the water fell the current returned to the channel and the ice moved down stream but as the water raised it stopped again until finally it poured over the police flat and the ice jam for this year was a thing of the past. One curious sight was the ice below the cut into the flat returning upstream and running out to the side. The highest water was a very little below the point reached 4/1881. Five treatises were carried from under the approach leaving eighty feet of plank suspended in the air. As teams were still crossing, Mr. Prince, M.L.A., with commendable propititude, had the police stop the traffic while he had temporary repairs made. The bridge is now open again.

The Great Renowned Stomach Cure of the Age.

In the deep from whence man came, in the great storehouse of nature, the great remedy of modern times, Vitae Ore. It is a positive remedy for most of the ills to which the human flesh is heir, especially of the blood, stomach, liver and kidneys. Coming from nature it is perfectly pure, and if you are suffering from any disease of the stomach and will give Vitae Ore a trial according to directions and are not cured, your money will cheerfully be refunded, and you shall be the judge. For sale by N. M. Johnston, Agent, Sixth Street H.B.R. post office box 161, Price \$1.00 per package, d-100-128-pd

Honor Graduate of Toronto University.

Dental office in the Fraser Block over Boston Clothing Store, Jasper Avenue.

War Notes

A St. Petersburg dispatch says: "The emperor has received the following telegram under today's date from General Kropotkin: General Sasulitch's report dated today, on the fight of May 1, says that the battle was fought under the following circumstances: The 12th and 22nd regiments and the second and third batteries of the sixth brigade of artillery were engaged in the battle, which began with heavy cannonading of our right flank by siege guns at Wiju and field batteries in the distance.

"After a lull the fighting was resumed with extraordinary vigor against the left flank of our main position at Turen Chen and our position at Potiatsinsky. A fusillade was also begun by small parties of Japanese across the Ai river. The situation of the defensive position became increasingly difficult, especially at Potiatsinsky, which was bombarded on the front and on both sides.

"Thirty Japanese guns were pitted against our battery at Potiatsinsky, which after alienating the enemy's mountain battery directed its fire on the Japanese infantry and sustained few losses so long as it was not obliged to take up another position, owing to the withdrawal of our infantry from the bank. The Japanese under our fire made continual bayonet attacks on our troops. Japanese bodies lay in heaps at the river fords.

"Simultaneously with the attack at Potiatsinsky an attack was being made on our left flank at Turen Chen and the Russian trenches had to be abandoned under the Japanese enfilading fire. Our reserves several times mingled with the first line, thus enabling it for a long time to maintain its position. Finally all of the supports were brought up into the firing line, but owing to the great distance from our main reserves, it was impossible for them to reach the advanced force in time and our men retired from the principal position to another position in the rear of Turen Chen, followed by a concentrated fire of the Japanese, who could not make up their minds to descend from the crest they occupied and face the fire of our batteries at Potiatsinsky. They dug fresh trenches and opened a heavy artillery fire on our new position, and began to turn our left flank towards the river.

"Two battalions of the 11th regiment and the third battery of third brigade of artillery, belonging to the main reserve, were ordered to Lad Fun Hoo. They occupied a position with a double firing line, thus permitting our advanced line, which had suffered heavily and our wounded to retire.

"A battalion of the eleventh regiment, both flanks of which were repeatedly turned by the enemy, advanced with fixed bayonets, preceded by buglers, to clear a passage. The Japanese, however, declined a hand to hand conflict and retired.

"In front of the regiment a chaplain, bearing a cross, was struck by two bullets. It was only by advancing on the Japanese with the bayonets that the seventh (7) regiment was able to retire. On the arrival of the battalion of the tenth regiment, all the troops were able to beat a retreat.

"The losses of the eleventh and twelfth regiments were very great, but they are not yet exactly known. In the eleventh the killed included Col. Laming and Lieut.-Col. Desmetti company commanders killed or wounded. The second and third batteries of the sixth brigade having lost the greater number of their men and horses, were compelled to abandon their guns. For some reason six guns of the third battery (4) of the third brigade of artillery, and eight pom-poms, which could not be brought away also disabled. The mountainous nature of the country made it impossible to save the guns by means of drag ropes.

"Up to the present 800 wounded, including four officers, have been brought to the hospital at Feng Wang Cheng. Their eventual transportation elsewhere is fully assured.

"The Japanese cavalry appeared to the southeast of Feng Wang Cheng, but seeing two companies with two guns opposed to it, did not venture to approach.

"The transportation of the wounded by hired Chinese bearers to Feng Wang Cheng was very difficult. Two-wheeled carts and horses lent by the cavalry were also used for this purpose. Most of the wounded, however, arrived on foot, assisted by their comrades, and reached Feng Wang Cheng within twenty-four hours. Lieut. General Sasulitch declares that the troops retained their morale, notwithstanding the heavy losses, and are ready for fresh engagements.

"The Japanese losses were very heavy at the passage of the Ai river at their position at Turen Chen, and on the hill occupied by the two battalions of the eleventh regiment. According to the statements of participants in the battle, at least 2,000 to 2,500 were killed."

DINWOODIE

(Bulletin Correspondence).

The gentle spring has arrived and seeding is in full blast, the lambs and calves and spring chickens keep life on the farm busy and interesting—no monotony now.

The Nutborough school is now completed, and the teacher, Miss M. Clark of Birch Lake, late teacher in Coldingham, Scotland, takes up her duties here tomorrow. She holds a first-class professional certificate from the Educational Department, Scotland, and a permit here for 3 months. The district is in luck to secure so experienced a teacher in this new and out of the way district. The board of education at Regina should at least grant a professional standing to all British teachers and permits.

The Vermilion river again this spring as usual, has been very high, washing out the approaches to the bridges built by the government last winter, and out off travel from east to west. The officers of the agricultural society took the matter up and had the bridges repaired, but the high water again put the bridge out of business and the mail had to cross last week by boat, swimming the horses and wagon over 50 yards.

The trail to the Barr colony has some very bad places in it on Beaver Lake east. The Northwest Assembly should do something to fix up the worst places so that the immigrants and others will be able to travel by this route before the heavy rains in June commence.

On the 11th of April we were favored with an address from Mr. Tor Talbot, Liberal candidate for the House of Commons for this district. Quite a representative audience gathered to hear him and all were pleased to hear the fair discussion of the political issues of the day as put by Mr. Talbot.

Harry E. White has left for Oida to study the ranching conditions of the south before launching out for himself.

M. Collinet, from Paris, France, who has been the guest of C. C. Ward viewing the land, has left for Edmonton.

May 4th, 1904.

Prisoners of Germany

Among the recent arrivals in Saskatoon, says the Phenix, is Mr. T. W. Clarke, an ex-member of the Cape Police D. 2, from Kimberley, South Africa, who was also through the second Matabele war and the Jameson Raid, and who had a somewhat unique experience in the late South African War. He was along with some seventeen other members of that force, taken a prisoner at a place called Roof Kopjes, on the boundary line between Cape Colony and Little Namaqualand, or a detachment of the German South Africans. On the 15th of February, 1899, during a retreat from a large command of Cape rebels across the Valsbure Desert, north of the Orange river, his small band happened to cross the international boundary line, when they were taken prisoners by the Germans, and after a few weeks spent at Dusseldorf, in the open air, without tents or other shelter, were eventually taken to Kestmannshook, some 250 miles further into Namaqualand. During the whole of this march only two or three houses were passed, although there was plenty of water and an excellent crop of grass, and apparently a good country. This shows the difference between German and English methods of colonizing. They were detained at Kestmannshook until August 9th, when they were released. The Germans, on the whole, treated their prisoners very humanely, especially in the food line, as they allowed them two loaves of bread a week, while the daily allowance of food consisted of a cup of coffee (1) without either milk or sugar for breakfast, a very minute portion of boiled meat for dinner at 11:30 a.m. and at 4 p.m. a second edition of the morning coffee—this from a neutral country!

La Grippe

CURED BY
**Chamberlain's
Cough
Remedy**

This remedy is intended especially for Colds and La Grippe and has become famous for its cures over a large part of the civilized world.

It not only cures La Grippe but counteracts any tendency toward pneumonia. Price, 25 cents; large size, 50 cents. For sale by druggists everywhere.

LOCAL

—Baseball practice tonight.

—The regular meeting of the town council takes place in the council chamber tomorrow night.

—The annual meeting of the Episcopal League will be held in the Methodist church this evening.

—Messrs. Gouin and Almon are removing today to room 4, in the new Sandison block.

—E. Gryderman and family leave Edmonton at an early date to reside in the United States.

—Johns & Thompson of Lloydminster left on Saturday with a snow load of general provisions and agricultural machinery for the colonies.

—Miss E. Pauline Johnson and Mr. McKays, the popular entertainers, appear in Robertson hall on the evening of Victoria Day.

—Part of the fire brigade and a hose reel were turned out on Saturday to put out a burning fence at the residence of Mr. Bishopric on Fifth street.

—The C.P.R. surveyors, who have been out from Wetaskiwin for several weeks, making an alteration in the survey of the new line, went to Lacombe on Monday to continue.

—A burlesque comedy entitled "Pat's Hard Luck" will be given in Robertson Hall to-morrow evening. There will also be exhibitions in club swinging and horizontal bar work by local men work there.

—Registered Hereford bulls, cows and heifers will be offered at private sale in Calgary, upon arrival, by Geo. Leigh and B. and W. George of Aurora, Ill., nearly all from dams and sires imported from England.

—The sidewalk along the south side of Jasper Avenue is being extended to the western boundary of the town. A large portion of the work has already been done and the material has been distributed for the remainder of the work.

—C. F. Helfwig brought to the Bulletin on Saturday samples pulled from a 20-acre field of wheat on his farm about eight miles northeast of town. One of the spikes measured 21.2 inches on the green part and over three inches from the root to the tip of the leaf.

—The Sisters of the General Hospital acknowledge with thanks the receipt of \$20.65, their portion of the proceeds of the collection at the Oddfellows' anniversary service. They also thank Mr. Forbes of Fort Saskatchewan for cut flowers, and Mrs. Scammon of Strathcona and Mrs. Gallagher, Edmonton, for magazines.

—Rev. A. Ewing, Chinese missionary of the Synod of British Columbia, will lecture in the auditorium of the Presbyterian church at 8 p.m. on Wednesday on China and Japan. Mr. Ewing spent twelve years in the East during which time he acquired a keen insight into the habits of the Oriental people. The lecture will be illustrated by 100 fine light views.

—All interested in baseball are requested to turn out to the practice this evening as it is desirable to get down to systematic workout soon. The club is in receipt of an invitation to visit Ft. Saskatchewan on the 24th and compete for the \$75 purse hung out there. All members of the club and all wishing to get in the game are invited to attend the practice this evening.

—T. P. English, C.P.R. agent at Strathcona, was in town last week investigating for the company the cost of transportation from Edmonton to Prince Albert. The damage to the Prince Albert branch by the floods, it was thought, would delay business for a considerable time and the company considered seriously the question of sending passengers and freight to Edmonton and down the river by scow. It is not known yet whether the proposal will materialize or not.

—The work of deepening the Medicine Hat gas well at the west end of the town is proceeding. The 6-inch pipe has been put down to the 700 foot level, and instead of shutting off the gas as expected, the flow has much increased and is better now than it ever was. Four and five-eighths inch casing is being put inside the six inch and the drilling pushed to a lower level. The increase in the gas at the 700 foot level is looked upon as a good indication that a more valuable find may be had at a lower level.
